Profile

A proactive and driven individual with a diverse professional background in security forces and software development. Demonstrates strong problem-solving abilities, adaptability, and leadership, honed through years of high-pressure environments. Now fully committed to pursuing a career in software engineering, leveraging skills in JavaScript, Python, Java, HTML5, CSS, and SQL. Passionate about technology, quick to learn, and eager to contribute to a dynamic development team.

Skills

- Programming Languages: Java, JavaScript, Python, SQL
- Web Development: HTML5, CSS, JavaScript
- Version Control: Git, GitHub
- Problem-Solving: Strong analytical and critical thinking skills
- Communication: Fluent in English and Hebrew; conversational in Italian, Russian, and Arabic
- Team Collaboration: Effective in both independent and team environments
- Adaptability: Proven ability to quickly master new tools and technologies
- Attention to Detail: Diligent in producing high-quality, accurate work.

Technical Projects

Portfolio Website

- Developed a personal portfolio using HTML5, CSS, and JavaScript to showcase software engineering projects.
- Implemented interactive features such as hover effects and infinite particle background animations.
- Integrated responsive design principles for optimal display on both desktop and mobile platforms.

Express API Development

- Built and deployed a RESTful API using Node.js and Express.js.
- Implemented routes for data handling and performed unit testing to ensure robust functionality.
- Integrated third-party APIs and database systems to manage backend operations.
